Chairman Dobbins, of the Council Finance Committee, has at the request of the Board of Public Works called a of the Board of Public Works called a meeting of his committee for this eventure. The subject to be considered is the means of raising the necessary funds to complete the paving of North Main street. The committee seems to be in favor of completing the paving from Tenth to Ninth street, and from Third to Jonathan's ravine as well, taking the money from other work contemplated by the Board. A member said last night, however, that he would protest against reducing the money appropriated for Market street. His idea was that Main and Market streets should be paved, and if the money was not suffipaved, and if the money was not suffi-cient to do the other work contracted for, let it go undone. This can be done under the contracts as drawn up by the Board.

Yesterday, as they came out of the dining room after dinner, they were arrested by officer Carney, of the city police force, on warrants issued by Justice Davig, and sworn out by Charles W. Berry, of Columbus, which charged C. W. Gaston and Lucy Doyle with fornication.

Gaston is a tall, blonde haired and mustached, blue eyed, fairly good look. An attired in a rather striking light spring suit. He came here to work, under another man who arrived with him, as soliciting and advertising representative for a well known soap house in Cincinnati. It is due to the third party to state that he was led to suppose the relations between Gaston and the young woman were perfectly proper.

Miss Doyle is a pretty little brunette, who does not look to be over 18 years old, but who says she is over 21; and in this she is corroborated by her brother in law, Mr. Berry, the man who had the pair arrested. She was modestly and becomingly attired, and was as modestle looking as a Purituan maid. She is cared for by neighbors, Mr. Martin Thornton, of the Brunswick restaurant, having long taken almost the entire burden of her support upon himself. The past winter she was for a good while seriously sick, and it was not supposed that she would ever be out of bed again, but she recovered and has been going around lately as she used to. Wheeling, May 21.

The first serious accident from electricity that has happened in Wheeling occurred Saturday afternoon, when Ches Dean, in the employ of the electric company, received a severe shock which deprived him of his senses for some time. He was working at a connection between the street and house wires at Wickham's pool room on Main street when the accident occurred. No permanent injury was received, though in addition to the shock he was severely bruised by falling from the step ladder on which he was working.

H. Moore, Walter Joy, Eli H. Daniel and Sampson Hairman, all of Newark, arrived yesterday to testify in the case. Prosecuting Attorney Jordan will conduct the case for the State, and Messra. Sommerville and Howard have been retained for the defense. It is possible that they will be assisted by the attorney employed at Mt. Vernon, Ohio, by Kelly and Christie, to defend them on the charge of burglary there.

The evidence against the two men consists of their own statements to fel-low prisoners at Newark, and of many circumstances, trivial in themselves, which are thoroughly corroborative of these confessions. One of the points the defense will doubtless urge is that these men do not answer the description given by Glenn of those who shot him.

A WOTU ABOUL CAUTTI.

"It is the mucous membrane, that wonderful sembfuld envelope surrounding the delicate issues of the air and food passages, that Catarrhinakes its stronghold. Once established, it eats into the very vitals, and renders life but a long-trawn breath of misery and disease, dulling the sense of hearing, trammeling the power of speech, destroying the faculty of smell, tainting the breath, and killing the refined pleasures of taste. Insidiously, by creeping on from a simple cold in the head, it assaults the membranous lining and envelops the bones, eating through the delicate coats and causing infammation, sloughling and death.
